COMMERCIAL INTELLIGENCE

BOMBAY MARKET REPORT.

THURSDAY EVENING, Nov. 8.

LIKE so many previous weeks, the one now drawing to a close has been very quiet from a business point of view, and we may have to wait for some time before anything like a general revival in trade takes place. Cotton is dull—the recent heavy failures in Liverpool, and large receipts at the American Ports, being against any material rise at the present time; besides, prices here are above the level of the home markets, and exporters and spinners are holding off in expectation of lower rates later on. The movement in Wheat has been unimportant, but with better advices at the close there is rather more enquiry apparent, but the heavy stocks now weighing on the English markets, must check any strong upward movement, notwithstanding reports that the world's supply of this cereal is expected to fall short of that harvested during the preceding year. Little or no alteration in Oil-seeds. In freights the tone is a shade firmer, and 20s. is now asked by going steamers for Liverpool, both for weight and measurement. A sailing vessel has been put on the berth for March loading, and tonnage can be had at 35s. Moderate business offering for the Continent at low rates. In Imports, we have had a fair number of operations in Grey Piece-Goods; Metals quiet. Money is easier on this side, but rather dearer in Calcutta; Government Paper firm; Shares—particularly those of the leading Spinning Mills—have been in good demand at higher prices. Sterling Exchange after several fluctuations closes with a firm tendency—but the drop during [illegible] last seven days has been [illegible] the week we had one or two [illegible] the neighbourhood—a most unseasonable time of the year. In some of the districts the weather has been cloudy, and we have heard of any further damage [illegible] Rabi crops are now being sown, [illegible] appear to be encouraging.

[illegible]ding to the Bank of Bombay's [illegible]ned on Monday last the Cash [illegible] 99½ lakhs of rupees—a rise of [illegible] compared with the previous week. The trade demand for money as indicated by the loans and discounts showed an increase of eleven lakhs. The Bank rate, however, being above that current in the bazaar, a reduction of two per cent. was made at the Board meeting on Wednesday, say to six per cent. for demand Loans. In Calcutta, however, the tone is decidedly stronger, and the Bank of Bengal has just advanced its rates one per cent.—thus making the figure for demand loans nine per cent.—say, three per cent. over the quotation on this side. In a short time any disperity of this sort must adjust itself, for the interchange of loanable capital between the two Cities is of daily occurrence, and we learn that the Calcutta Correspondents of the Bombay Banks have received large loans in this way, within the past day or two. For bills on Calcutta we quote:—Sixty days' sight Rs. 99 3-16; thirty days' Rs. 99 9-16; demand Rs. 100 3-16.

EXCHANGE opened quiet on the basis of 1s. 7 9-16d. for demand Bank bills, and 1s. 7 13-16d. for three months' Credits, documentary paper being negotiable at the same rate. These quotations were current until Monday morning—a rise of 1-16d. in the price of Bar Silver in consequence of purchases on behalf of the British Mint—having no effect whatever. Monday and Tuesday were both dull days: the demand for remittance, being far in excess of the Mercantile bills offering as cover, Bankers reduced their rates 1-32d. all round. On Wednesday the weakness became more pronounced, and ready three months' Credits were sold at 1s. 7¾d.; March delivery 1s. 7 13-16d. On Thursday morning a better feeling became apparent—the Government Telegraphic transfers having been allotted at 1s. 7 17-32d., which is considered a full rate—Calcutta receiving 27 lakhs; Bombay *nil*. The remaining operations in Council bills consist of Rs. 80,000 ordinary demand to Calcutta, and Rs. 1,40,000 to Bombay at 1s. 7¾d. The amount advertised for next week is thirty lakhs. Calcutta is advised firm at 1s. 7½d. for Telegraphic transfer and 1s. 8d. for six months' Credits. Some resales of ready demand Bank Bills were made here at the close at 1s. 7 19-32d. Closing rates are:—

Bank Bills on demand	1s. 7 17-32 to 1s. 7 9-16d.
Do. Telegraphic Transfer	1s. 7 15-32d.
Do. Three Months Sight	1s. 7 21-32 to 1s. 7 11-16d.
Credits, do.	1s. 7¾d. to 1s. 7 25-32d.
Francs, do.	fcs. 2·08 to fcs. 2·08½.

There has been a moderate amount of business [illegible]week in Mercantile bills, but the rates [illegible] have been in forward demand Bank [illegible]d above the current rate according to [illegible]elivery. Bar Silver, after advancing to [illegible]er oz., closes quiet at 50 13-16d. The [illegible]nts of the week consist of £10,000 in [illegible],000 in Gold to Bombay.

[illegible]T PAPER remained quiet for the [illegible]he week without any alteration in [illegible]n Monday, however, a steadier feel[illegible]parent, and on the day following [illegible]e reported in 4 per cents. at Rs. 99 [illegible]and in 4½ per cents. at Rs. 102⅜ [illegible]reaction has since set in, and rates [illegible]. 98⅝ for Fours and Rs. 102½ for Fives.

SHARES.—Bank of Bombays, after receding to Rs. 746½, close steady at Rs. 747½. Land Companies have declined a little. Transactions in Port Canings and Colabas have taken place at Rs. 390 to Rs. 395 and Rs. 787½ to Rs. 795 respectively. In Press stock there has been a moderate amount of business doing this week, but at improved rates. Akbars have advanced to Rs. 1,100; Alberts to Rs. 1,220; Bombay Cottons to Rs. 1,090; Mofussils to Rs. 410; and Prince of Wales at Rs. 610. Berars and East Indias have on the other hand fallen to Rs. 675 and Rs. 1,390 respectively. Mill shares have been firm, and rates have risen about Rs. 10 to Rs. 20 per share for many of the leading concerns. Sales are reported of Albert Edwards at Rs. 600; Alfreds at Rs. 525; Alliances at Rs. 920; Bombay United at Rs. 1,025; Coorlas at Rs. 910; Dhurumseys at Rs. 510; Empress at Rs. 875; Framjee Petits at Rs. 935; Hindostans at Rs. 1,050; Hydrabads at Rs. 1,200; Jewraz Balloos at Rs. 1,165; Khataos at Rs. 1,065; Mahalukshmis at Rs. 1,005; Mazagons at Rs. 247½; Morarjees at Rs. 1,505; New Great Easterns at Rs. 1,065; Orientals at Rs. 712½; Parells at Rs. 312½; People of Indias at Rs. 285; Prince of Wales at Rs. 285; Victorias at Rs. 790; and Western Indias at Rs. 975. Bombay and Burmah Tradings have given way to Rs. 4,375 for the original and Rs. 875 for the new issue of shares. Kemp and Company's shares have recovered a little, and there are buyers at Rs. 312.

IMPORTS.

PIECE-GOODS.—Since the departure of last mail, a quieter feeling has prevailed in our market. There have been heavy arrivals on account of Native Indentors, but prices have been maintained. The sudden fall in Sterling Exchange has checked dealers in sending home Indents to any extent, and business for forward delivery has in consequence been on a restricted scale.

Yarns.—Both 30s Water and 40s Mule are dull and depressed, but on the other hand there is an active enquiry for local manufactures for the China markets. Prices remain unaltered.

METALS.—*Copper* remains quiet, and some transactions in *Brazers* "to arrive" are reported to have taken place on the basis of sterling limits equal to about Rs. 45 per cwt. In *Yellow Metal* we have no heard of any sales, but in the bazaar Elliott's Brand is retailed at Rs. 34-12 per cwt. on the spot.

COALS are steady, and prices are hardening. We note:—Welsh Hartley Rs. 17 per ton; West Hartley Rs. 17; Cardiff Rs. 18-8 alongside.

EXPORTS.

COTTON opened firm in accordance with the tenor of home advices, and dealess for a day or two [illegible]ed an advance of Re. 1 per candy for New [illegible]on. The improvement was short lived, for [illegible] weaker advices from home, buyers have held [illegible]and although Good New Machine-Ginned Broach, [illegible]rch delivery, is offered at Rs. 211-212, and Good [illegible]arawuttee at per 163, it is difficult to find buyers. The transactions of the week have been confined to a few lots of ready Dhollera, Oomrawuttee and Sawginned Dharwar at current prices, and to some forward contracts in Good Bengals at Rs. 149½ to Rs. 150 per candy for November-December delivery.

The movements of Cotton to date show the following comparisons with the two previous years:—

WHEAT opened quiet at last week's quotations, but as cheap freights were offered by steamers loading for U. K., several purchases were effected at gradually hardening rates. Latterly the demand has been on a slightly increased scale, and prices of some descriptions show a rise of over one rupee per candy. We quote:—White Pessie No. 1 Rs. 31 to Rs. 31½; Yellow Rs. 25½ to Rs. 26; Luskari Rs. 24 to Rs. 24½; and Catha Rs. 21½ to Rs. 22 per candy.

Linseed has been in fair request, notwithstanding the want of encouraging advices from home. A pretty large business has been done in ready lots, and as supplies from up-country have been far from large, prices are well maintained at Rs. 5-11½ to Rs. 5-11¾ per cwt. New Crop for April-May delivery Rs. 5-6½ per cwt., but we have not heard of any transactions.

Rapeseed has remained dull and devoid of animation, but owing to limited arrivals by rail, there is scarcely any reduction in prices. The demand has been confined chiefly to Brown sorts at Rs. 6-12 to Rs. 7 per cwt. Cawnpore has been done to a small extent at Rs. 7-4 to Rs. 7-8. Nothing going on in Guzerat, the price for which is Rs. 7-12 to Rs. 7-14 ready and Rs. 7-2 April-May delivery.

Gingelly Seed is quiet. A small business in Cawnpore at Rs. 36½ and White Howrie at Rs. 37 to Rs. 37½ per candy is reported.

Poppy Seed is steady at Rs. 6-7 to Rs. 6-8 per cwt.

DEFECTIVE OR FAILING SIGHT.

THE sense of sight is so valuable that the importance of perfect and carefully adjusted spectacles can scarcely be overrated; although the wearing of single eye-glasses should be strictly avoided, we have the highest medical authority, confirmed by daily experience, that imperfect glasses, together with the haphazard plan of selection generally employed, are frequent causes of irremediable injury to the sight; and as no present economy can compensate for future loss, it behoves all to be cautious how they are tempted to use the common pebble or glass spectacles now so generally sold.

For the guidance of those who are using pebble spectacles, it may be stated that when the pebbles are cut *against* the grain, and not polished on the principle which has been universally declared the most appropriate, based on scientific research, they are injurious to the sight.

Unadvisable as the unnecessary wearing of spectacles undoubtedly is, the common notion that their use should be postponed to the utmost is proved beyond dispute to be a grave mistake.

Being in possession of all the optical instruments taken over by us from Dr. A. Menist, we are not only in a position to suit the eye sight to perfection, but to supply different accommodations for each eye which may frequently are needed.

THREATENED DISTURBANCES BETWEEN HINDUS AND MAHOMEDANS AT DELHI.

(FROM A CORRESPONDENT.)

AGRA, Nov. 8.

There is great excitement here, and Hindu business of every description is suspended. The Officiating Collector refuses to sanction the annual cow procession, the Mohamedans having threatened to attack the Hindus if the cows are brought out. Serious disturbances are apprehended unless both parties are treated impartially.

THE adjourned quarterly meeting of the Municipal Corporation which was held yesterday was entirely devoted to the further consideration of Mr. Kabrajee's resolution that a remonstrance be laid before Government against the selling of the reclaimed ground on Back Bay. Colonel Merewether moved an amendment to the effect that no action be taken in the matter unless the Corporation were prepared to pay for the land which it was desired to reserve. This was seconded by Dr. Shaik Cassum. Another amendment was moved by Mr. Geary, as follows :—"That Government be requested to defer action in respect of the Back Bay reclamation until the subject of utilising the available building sites in the Marine Lines and neighbourhood be considered in relation to the question of retaining, for the purposes of health and recreation, the open spaces along the western side of the city." This amendment was seconded by Mr. Javerilal. On a vote being taken both amendments were lost, and Mr. Kabrajee's resolution was carried.

MR. J. M. SLIGHT writes to us relative to the effect of the scheme for amalgamating the Guarantee and Pension Fund of the Bank of Bombay, and says :—"I deprecate the discussion of the Bank's private affairs in the columns of any public journal, and shall not therefore publicly discuss with you the merits of the scheme. I would, however, state that your remarks appear to be based on letters that were written long before the scheme was perfected, and are consequently incorrect. The assumption, too, that any loss has been made is, at least, premature, if not absolutely incorrect. So far the fund exists intact, and promises to fulfil, the objects of its formation. I may also mention for the satisfaction of any who may be interested, that the scheme was submitted to Mr. James Meikle, of the Scottish Provident Institution, one of the most distinguished Actuaries in the United Kingdom, and obtained his approval before being adopted." The Bank's private affairs are certainly not within the pale of discussion; but the principles on which a public company of great importance regulates so important a matter as that referred to, is certainly a matter of general interest.

MR. PLUNKETT is appointed City Magistrate of Poona, but acts for the present in Bombay for Mr. Ryan.

THE following gentlemen have been added to the Bombay Committee in connection with the Calcutta Exhibition :—Messrs. R. Walton, C.E., H. Curwen, and G. E. Ormiston, M. I. C. E., and Surgeon-Major W. Dymock, B. A.

THERE was not a single death from cholera in the town last week; but one was reported on board a native craft in the harbour. The general death-rate for the week was 21·38, as compared to 24·95 in the corresponding week of last year.

GENERALLY, in the Bombay Presidency, the condition of the crops is fairly satisfactory. Some damage was caused by the recent unseasonable rain, but it does not appear to have been of an extensive or very serious character. Poona is the district which suffered chiefly from the rain of Saturday and Sunday last. Locusts are damaging the crops in Kolaba, Satara, and Nasick. The public health suffers almost everywhere, as usual at this time of year, from fever; but there is now very little cholera about, the heaviest mortality from this cause being in the Satara district—32 deaths during the week.

IT is understood that Mr. Grigg, the Director of Public Instruction, Madras, will be taking furlough to Europe next year. In all probability Mr. Fowler, who [illegible] of Public Instruction for Madras, will [illegible]

furlough has expired, in order to take up the Directorship. Mr. Fowler's appointment, the local *Mail* says, would be popular in the Education Department.

SIR ROBERT SANDEMAN'S expedition to South-Western Biluchistan will start on the 15th instant, the same day on which the Frontier Survey Expedition leaves Dera Ismail Khan for the Takht-i-Suleiman. Two Engineer Officers, Lieutenants Talbot and Wahab, R.E., have been detached by Major Holdich to join the former party for survey purposes; and between the two reconnaissances a good many blank spaces are expected to be filled in on our frontier maps during the next month or two.

INDIA, which recently in deference to the outcry of English manufacturers gave up her customs duties, is badly treated by England in return, remarks the *Statesman*. Indian tobacco is taxed some 300 to 500 per cent., and Indian silver or gold manufactures also have to pay largely before they can be imported into any English seaport. Where India, a comparatively poor country, could ill spare the £300,000 customs revenue which was given up the other day, a relief from the English duties, which press hardly on India, would scarcely be felt in England, whilst cheap tobacco and cheap tea would go a long way towards fulfilling the great British free-trader's dream of a "free breakfast table" to the English working-man.

REFERRING to the partial failure of the rice crop in Bengal, the *Pioneer* says that fortunately there appear to be considerable stocks in hand from the past year. The Calcutta correspondent of the same paper, writing on Nov. 3, says :—"Rain still holds off, to the continued anxiety of district officials in the various wide sections of our province, and prices of rice and grain are steadily going upward, I am told, in the local and mofussil bazaars, to the dismay of the lower classes, and to the misery of the wretched ryots in the districts. There were indications of impending rain last Thursday; there was a slight shower on Friday in the neighbourhood of the city, and to-day heavy clouds were visible in the sky. Towards nightfall, however, the clouds cleared away with the setting sun, and this evening it is clear and chilly. Matters in view of a short rainfall look serious, decidedly, for Bengal; but perhaps the coming week may improve the present rather gloomy outlook for agriculture and the crops; unfortunately some people say that the crops are now too far advanced to benefit by any rain."

THE *Englishman* publishes the correspondence between the Central Committee of Landholders and the Government of India with regard to the postponement of the Rent Bill until the landholders had seen the official opinions upon the Bill, and had had an opportunity of considering them. The landholders state that "the Bill is one which affects the rights of property, and the owners of that property think that they may fairly and reasonably ask that those rights should not be dealt with on representations which they have not seen, and which, if inaccurate, they have had no opportunity to correct." To this the Government of India reply that "the opinions will be published in the *Gazette*, and any amendments which the Government of India wish to make will be proposed in the only way in which it is practicable to propose them, viz., when the Bill is before the Select Committee." The *Englishman's* comment on the correspondence is that "the landholders have, undoubtedly, a very strong case to represent to the Secretary of State. The despatch of the Government of India soliciting Lord Kimberley's sanction to the Bill bears internal evidence of having been written by Mr. Mackenzie, the chief author and originator of the measure, and is one of the most misleading documents, to use no stronger term, that ever issued from a Government office. If it is the fact, as the landholders allege, that the case has been wilfully misstated to the Secretary of State, the author of the despatch ought, in the interest of public justice, to be called to a strict account. It is no light matter to tamper with the rights of property of a whole province." That is we suppose just what the supporters of the Bill would say. Their case is that the rights of property of the ten millions of ryots in the "whole province" have been tampered with, and that it is necessary to restore and protect them.

CULTIVATION of cotton in the North-West Provinces is progressing, the area under cotton last year being the largest on record, and the season was on the whole a very favourable one. American cotton continues to be grown with success at Cawnpore and in the neighbourhood. The following paragraph from the letter of the Director of the Department of Agriculture and Commerce, N.-W. P. and Audh, accompanying the report, will interest Bombay merchants :—

"The stream of export seems to be gradually turning from Calcutta to Bombay owing to the influence of the Rajputana line. Cotton is the staple which has been most affected by this railway owing mainly to the situation of Agra in the middle of a great cotton producing tract, which therefore formed the raw produce on camels or carts direct to the railway station, and save thereby the inconvenience of breaking bulk necessitated in the case of other commodities by the distance they have to be carried to the narrow-guage line."

Whereas in 1880-81 only 13,774 maunds and in 1881-82 only 29,652 maunds of cotton were sent *via* Cawnpore to Bombay, in 1882-83 the amount so despatched was 1,57,432 maunds, while there were sent to Calcutta in 1880-81 and in 1881-82 3,50,488 maunds and 4,20,783 maunds respectively, and in 1882-83 only 2,61,571 maunds. *Via* Agra, there were sent to Bombay in 1880-81, 11,454 maunds, in 1881-82, 2,10,500 maunds, and in 1882-83, 3,16,663 maunds; while the export to Calcutta *via* Agra for the same periods was :—1880-81, 4,42,817 maunds, 1881-82, 3,08,967 maunds, and in 1882-83, only 1,68,894 maunds.

THE Calcutta correspondent of the Allahabad paper states that "there are nearly fifty fairly well-known gentlemen here now badly hit by the recent and present general 'shrinkage' (as they call it commercially) of shares in value. A good many of these unhappy speculators have come to their ruin and irretrievable grief over jute shares, which continue to be in a most depressed condition; one hears daily of unlucky whites who have lost a lakh or fifty thousand rupees over their unfortunate, and in certain cases almost criminal, speculations. There are men now in Calcutta who with small capitals, say twenty or twenty-five thousand rupees, have been speculating upon the share market to the tune of two lakhs of rupees a piece—ten times the amount of their actual legitimate capitals. Only yesterday I heard of one man involved to the extent of a lakh-and-a-half of rupees, who is unable to pay four annas in the rupee to his creditors. For men so reckless but small sorrow can be spared by the public. At the same time there are many lesser dabblers in speculation who have been swept like minnows along with the sharks into the inextricable net of ruin caused by the general fall in the value of shares in the jute market, for whom it is impossible to feel anything but deep regret. Some of these men, too, unfortunately are prominent characters here, either in business, position, or society. Shares in nearly all concerns in which the public of Calcutta is interested have fallen so greatly in value of late that the aggregate shrinkage is estimated by a competent authority at about a million and a quarter pounds sterling! There has been nothing like it for nearly twenty years."

MR. J. WARE-EDGAR will, it is expected, shortly be appointed President of an Excise Commission in Bengal. Should a native member be appointed, the *Indian Daily News* says, to the Commission, the choice is likely to fall upon Baboo Obhoy Churn Doss, now employed in the 24-Pergunnahs.

MESSRS. JUST AND PUGH, representatives of New South Wales at the forthcoming International Exhibition, arrived in Calcutta last Saturday by the mail-steamer Siam. The work in connection with the Exhibition is being rapidly carried forward. The erection of machinery exhibits has been begun in the machinery annexe on the *maidan*, and the Military Court is nearing completion.

"MUFASSALITE" makes a fair hit at the Calcutta people who have been talking and writing so loosely, in the following brief letter to the *Englishman* :—"Sir,—Does it not seem incongruous for the public to accept a racing cup from Lord Ripon, when they refuse to meet him in public, or to attend his levée? *It* strikes me that this may be numbered among the list of 'anomalies'."

THE *Englishman* thinks "there are indications that the course taken in regard to the Ilbert Bill will, in the absence of instructions to the contrary, be to pass the Bill, with the modifications already announced, during the Calcutta season, and that the Home Government will then give an opportunity in the House of Commons for a discussion, the result of which will determine whether the Secretary of State sanctions or vetoes the Bill." We have already explained that the matter is entirely in the hands of the Secretary of State, who will decide according to the probability or otherwise of the Opposition raising a discussion on the Bill in the House, if it be postponed until after the meeting of Parliament.

THE total receipts of the port of Rangoon in 1882-83 amounted to Rs. 7,66,890 against Rs 7,40,226 during the previous year, an increase of Rs 26,664, owing to a much larger number of vessels having visited the port during the year of report, consequent on the splendid rice harvest.

ABOUT 4,322 square miles are now under the supervision of the Forest Department in Bengal. The accounts of the Department show a steady increase in the outturn of timber, and in the annual profits, which have reached for the first time a sum of over three lakhs.

AT a meeting in London, on the 9th October, in connexion with the Baptist Ladies' Zenana Mission, a farewell was taken of seven lady missionaries about to depart for India to engage in zenana work. Three of these, Miss Cook, Miss Jennings, and Miss Bush, go to Calcutta; two, Miss Symes and Miss Spinks, to Benares; one, Miss Thomas, to Agra; and one, Mrs. Barrow, to Burrisal.

A *Daily Chronicle* telegram from St. Petersburg (Sept. 19) says :—The trial of sixty-three persons concerned in the Red Cross revolutionary plot has terminated, all the accused being sentenced to exile in Siberia. The trial showed that the plot extended all over the Empire.

AN agent from the *Irish World* newspaper on Oct. 18 distributed the fund raised by that paper for the families of the men in the Phœnix Park murder conspiracy. £206 3s. 9d. was given to each of the following :—Mrs. Brady, mother of Joe Brady; Mrs. Curley, wife of Dan Curley; Mrs. Kelly, mother of Tim Kelly; Mrs. Fitzharris, wife of "Skin-the-Goat"; William Hanlon, father of Laurence Hanlon; Mrs. Mullett, mother of Joe Mullett; and Mrs. Rowles, wife of Henry Rowles. Nothing was given to the relatives of Fagan and Delaney, because they pleaded guilty.

THE story told by the *Cologne Gazette* as to how it came to pass that King Alphonso became honorary colonel of the Uhlans stationed at Strasburg, if not true, is at least well invented. There were two regiments of Uhlans available, it seems, and the uniforms of both were submitted to the King, who preferred the one with yellow cuffs to that with white cuffs, and the one he preferred happened to be quartered at Strasburg. How foolish, remarks the *Pall Mall Gazette*, in the face of this story—which is quite probable enough to be true—seems the furious indignation of the Parisians over a purely imaginary insult, which now resolves itself into a young man's preference for yellow cuffs in a military uniform!

A CORRESPONDENT writes to the *Times* as to the value of tricycle exercise :—"I have been suffering for more than thirty years from an obscure and incurable malady of the spinal cord, involving almost unceasing pain of varying acuteness. For nine years past I have been unable to travel by railway, or to drive any long distance in any horsed vehicle, nor can I walk far, so that I have been a virtual prisoner in London, save for two short expeditions by water. Finding the lack of exercise hurtful, I asked my physician last year if tricycling would be feasible, and he advised my attempting it; and the result is that I have just made a successful run through Surrey and Sussex, covering some 110 miles, and have not only suffered no injury or inconvenience from the motion, but actually was in less pain than I have been for a quarter of a century previous. Spinal ailments are so common that this record of experience may be useful to patients or their medical advisers."

AFTER long balancing between the Right and Left wings of his own party, M. Jules Ferry has definitely decided, the *Pall Mall* remarks, to throw in his lot with the former. Henceforth his Government is to be Whig, waging war to the knife against the Radicals. "There would be more chances for his new policy if he really represented 'the Republic of Common Sense' abroad as well as at home. But there is a touch of absurdity about the spectacle of the Minister responsible for the raid on Madagascar and the dangerous imbroglio in Tongking posing as the champion of 'the practical and wise Republic, the Republic of Common Sense.' Whether his declaration of war against the Radicals will strengthen or weaken his parliamentary position depends much more upon events in Tongking than upon intrigues in Paris. If next week, when the Chamber meets, there is a reasonable prospect that the Tongking question will be brought to a satisfactory termination, he may survive, but another defeat before Sontay or a hitch in the negotiations with China would be fatal. His fate will be decided not by the Reds of the West, but by the Black Flags of the Far East."

MILITARY NEWS.

MAJOR G. E. ERSKINE, Bombay Cavalry, is promoted to Lieutenant-Colonel on completion of 26 years' service.

CAPTAIN B. G. HUMPHREY, Bombay Staff Corps, is promoted to Major on completing 20 years' service, six of which have been in the Staff Corps.

LIEUTENANT MEIN, Bombay Marine Battalion, is permitted to return to duty.

LIEUTENANT H. S. HAZELGROVE, 2nd Bedfordshire Regiment, is appointed a probationer for the Bombay Staff Corps.

MAJOR CAMPBELL, 1st York and Lancaster, has been granted an extension of leave in England until the 27th December next.

CAPTAINS ELVERSON AND HUGHES, Royal West Surrey Regiment, exchange into the 1st and 2nd Battalions respectively; the latter will do duty at the depôt.

LIEUTENANT HALL, Royal Warwickshire Regiment, is removed to the 2nd Battalion, and Lieutenant Cockburn's recent transfer to the same battalion is cancelled.

LIEUTENANT BOND, 2nd Cheshire Regiment, has been appointed to the 30th N. I. as a Staff Corps probationer.

THE MILITARY SECRETARYSHIP, MADRAS.—We learn that Colonel E. L. Hankin, Military Secretary to Government, is about to proceed to Australia on three months' privilege leave, and that Colonel Kenney-Herbert, Military Secretary to the Right Honourable the Governor, will act for Colonel Hankin, without prejudice to his present appointment. It will be recollected that at the time the late Military Secretary to Government, Colonel J. Michael, C. S. I., was about retiring, Colonel Kenney-Herbert was named as his successor in office. The public was, however, taken by surprise in Colonel Hankin's appointment. *On dit* that Colonel Hankin contemplates early retirement, and that his *locum tenens* will be confirmed in his appointment as Secretary to Government in the Military Department; an office he is, from his Secretarial experience with the Government of India, and varied military duties, not to speak of his well-earned popularity, eminently qualified to hold. There is no restriction as regards the rank of the Secretary to Government, Military Department, as shown in the case of the present officiating Secretary at Calcutta.—*Madras Mail.*

COURT-MARTIAL.—At a district court-martial, assembled at Fortress Gwalior on 16th of October, Second-Class Assistant Apothecary John Bartholomew Fawcett, of the Bengal Subordinate Medical Department, was arraigned on the following charges :—First Charge.—When charged with the care of public goods, fraudulently misapplying the same: in that, at Camp Maharajpore, on or about the 22nd of August, 1883, he fraudulently misapplied the following hospital stores, the property of the public, which had been entrusted to his care, namely, a bottle of brandy, of the value of two rupees five annas, or thereabouts; a bottle of Taragona wine, of the value of nine annas, or thereabouts. Second Charge.—Drunkenness on duty: in that, at Camp Maharajpore, on the 22nd of August, 1883, when on duty with a detachment of the 4th Battalion, Rifle Brigade, he was drunk. The court found the prisoner guilty of all the charges, and sentenced him to be dismissed from the service, and to be put under stoppages of pay until he shall have made good the value of the brandy and the wine.

TELEGRAPHIC WEATHER REPORT.

SIMLA, Nov. 7.—The pressure continues to oscillate slowly without much affecting the general distribution. To-day the barometer is rising in most places, but is falling in parts of the North-West Provinces, Central India, and the extreme south. The readings continue highest in Rajputana and Sind, and lowest off Negapatam. The winds and weather are practically unchanged. The normal clear skies exist all over Northern and Central India, while over the Peninsula, and especially on the Coromandel coast, the weather is dull or cloudy. Slight rain has fallen in Madras, but the amounts are daily becoming lighter, and the falls during the past 24 hours exceed one-fifth of an inch at Negapatam only. Rain to-day :—Negapatam 1 inch. Previously Nellore 1 inch, Calicut, and Cuddapah ½ inch.

THE following is the official summary of the Bombay Presidency District Season Reports for the week ended on the 7th inst :—

River very low in Sind. Rain throughout the Deccan and Southern Maratha Country; crops injured by it in parts of Poona, Nasik, Belgaum, and Kaladgi. Locusts doing damage in parts of Kolaba, Satara, and Nasik. Kharif harvest and rabi sowing continue. Fever generally prevalent; cholera, cattle-disease, and small-pox in a few districts.

ADVICE TO MOTHERS :—Are you broken in your rest by a sick child suffering with the pain of cutting teeth? Go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor sufferer immediately. It is perfectly harmless and pleasant to the taste, it produces natural quiet sleep by relieving the child from pain, and the little cherub awakes "as bright as a button." It soothes the child, it softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for dysentery and diarrhœa, whether arising from teething or other causes. Mrs Winslow's Soothing Syrup is sold by all druggists in every where at is. 1½d. per bottle. Wholesale by the Anglo-American Drug Company, Limited, 88, Farringdon Road, London.

THE CHARGE OF ASSAULT AGAINST THE POLICE.

INSPECTOR RENNIE and Constable Guider, together with three sepoys named Ladoo, Succaram, and Rowjee were charged again yesterday before Mr. C. P. Cooper, at the Fort Police Court, with assaulting three Borahs named Abdoolalli Alibhoy, Adamjee Jeewajee, and Jafferjee Adamjee, in Baba Dadoji-street, on the 14th August last.

Mr. Brown, of the firm of Messrs. Hore, Conroy, and Brown, appeared for the first two complainants; the third complainant was unrepresented. Mr. L. Russell, barrister, appeared to watch the proceedings on behalf of Superintendent Brewin; Mr. F. M. Mehta, barrister, represented the two European officers; and Mr. Balcrishna, of the firm of Messrs. Balcrishna and Bhugwandas, defended the sepoys.

Mr. Pherozshah, in continuing his address on behalf of Mr. Guider and Mr. Rennie, said that Abdoolalli's story that he was beaten in the chowkey by some unknown hands, but that he thought they were the hands of native policemen, was unsupported by any evidence except his own, and was a story which was exceedingly improbable on the face of it. It was an allegation easily made, and Abdoolalli thought that while it would create a prejudice against the police, they would find it a very difficult thing to meet such a vague, general assertion, unsupported though it was. The story would be that witnesses had as to the beginning of the disturbance was utterly improbable on the face of it. It was improbable that the police sepoy, by reason of a few abusive words applied to him, should have lashed himself into a rage, brought the lathi and other policemen to the spot, and vindictively got up a false charge against the Borahs. If the abuse was so important as to induce the sepoy to hatch a conspiracy against the Borahs, how was it that none of the Borahs could say what the exact words of the abuse were? Mr. Pherozshah then read and commented upon the evidence of Abdoolalli, pointing to the inconsistencies and contradictions which it contained. He had detailed certain convictions against him, but the defence had conclusively proved all those convictions, and shown that his character would not bear looking to, and that he was a man whose statements could under no circumstances be relied upon. Abdoolalli had been fined on several occasions for various offences, and he admitted having been guilty of criminal breach of trust, and of having suborned evidence against his own master. Yet this was the man on whose evidence the court was asked to convict the police officers on a serious charge. It was in evidence that three policemen were unable to arrest Abdoolalli, who had gone back to the shop after being rescued from custody, and that the policemen stood still in the verandah until Mr. Guider came to their assistance. The fact was, as the defence had put it, that Abdoolalli was rescued by the crowd of Borahs in the street, and that the three policemen were powerless against the crowd of outside Borahs. There was also another pause on the part of the police after Mr. Guider came to the spot. He found the crowd too powerful for him and the police officers under him, and he had to send for assistance. This circumstance also corroborated the version given by the police, and showed how utterly improbable was the story told by the prosecution. Again, the unimpeachable evidence showed the version given by the defence to be most probable and credible. It was a singular circumstance that, although all the Borahs were examined, no witness was called by Brewin's hand, and saw him striking Adamjee with it, not one of them could describe what kind of stick it was. The prosecution had tried to create an impression against the police by alleging that Adamjee fell unconscious to the ground, and that he was unconscious when he was put into the buggy. The defence had shown that Adamjee was not unconscious at the time, that he was active and kicking, and that he had to be carried into the buggy by main force. He pretended to be unconscious on admission into hospital, but the application of the electric battery showed that he was simply feigning unconsciousness. The prosecution had tried to improve upon a substratum of truth by stating the most palpable falsehoods; and the feigned unconsciousness at the hospital had suggested to some of the witnesses the false statements that Adamjee was flung out in an unconscious state into the street, that he was unconscious when he was placed in the buggy, that the unconsciousness continued until his admission into hospital, &c. With regard to the general character of the evidence for the prosecution, Mr. Pherozshah said it was the evidence of liars and perjurers. In the opinion of the judge of the Small Causes Court, gave in that court false evidence and suborned evidence. The learned counsel next commented upon the evidence of the minor witnesses for the prosecution. The first of these, Allibhoy, appeared to be a tutored witness for the reasons the learned counsel gave. The second boy-witness was one of the same character; and the contradictions in the evidence of these two boys were glaring. Coming to the medical evidence in the case, Mr. Pherozshah said it had been introduced with a great flourish of trumpets. The Borahs seemed to think that if they said they had been beaten with sticks, all the doctors had to do was to get some medical witnesses to say so. And the medical witnesses who were called seemed to think that they had simply to give an opinion that the Borahs had been beaten with sticks to have that opinion implicitly accepted. Mr. Pherozshah had no intention of saying anything against the good faith of the gentlemen called in this case, but adopting the words of Mr. Taylor on Evidence, he said it was true the aim of Mr. Olivant, wilfully misrepresent what they think; but their judgments become so warped by regarding the subject in one point of view that, even when conscientiously disposed, they are incapable of expressing a candid opinion. To adopt the language of Lord Campbell, 'they come with such a bias on their minds to support the cause in which they are embarked, that hardly any weight should be given to their evidence.' Mr. Pherozshah referred to a case in which, within his own experience in a recent Parsee matrimonial case, three or four eminent doctors were got on one side of a question to contradict an equally eminent three or four on the other side. He said that neither of the doctors called in this case had kept any notes of the injuries they said they had seen, and that the absence of such notes took away much from the value of their evidence. Adverting to the evidence for the defence, the learned counsel said Mr. Chislett's evidence was disinterested and entitled to credit. Fortunately for the defence, Mr. Brewin had been called and had given his evidence in a straightforward and perfectly honest way as to what actually occurred from the moment he arrived upon the spot. The motive for this prosecution was transparent: Mr. Brewin had entered upon a crusade against those Borahs who had tried to form in the street into workshops; and this case was the result of their ill-will. The conclusion of the case, the learned counsel trusted, would establish that these Borahs ought to have been convicted in the Oriental Police Court of assaulting and resisting the police; that in this court, after escaping the punishment which they merited, they had perjured themselves to bolster up a false case; and had suborned witnesses to support a false case; that they had been found out in their attempt to wreak vengeance upon the police for the honest discharge of their duty; and that, at any rate, they had failed in their object, namely, to turn their street into workshops with impunity.

Mr. Balcrishna on behalf of the three sepoys then addressed the court, and contended that the accused Ladoo, who had been stated to be the prime cause of the whole of the disturbance, only did his duty conscientiously when he ordered the tin plates to be removed; while the complainant Adamjee acquitted all three of them of assault.

The case was adjourned till to-day (Friday) 11 a. m., when Mr. Brown will address the court.

BOMBAY TOWN COUNCIL.

At the usual meeting of the Town Council there were present—Sir Frank Souter, chairman, Colonel Merewether, Messrs. Grattan Geary, Nowrozjee Furdoonjee, Raghunath N. Khote, N. Byramjee Jeejeebhoy, Dosabhoy Framjee, R. M. Sayani, and M. N. Banajee.

REMOVAL OF ATTIC FLOORINGS.

The following letter was submitted to the Council :—

Bombay, 3rd November, 1883.

To the Acting Municipal Commissioner for the City of Bombay.

SIR,—I have the honour to bring to your notice that Dewjee Jawat has built a godown with four shops at the junction of Musjid and Bhandoop-streets, without the permission of the Municipal Commissioner. The work was commenced in April last, and a notice, under section 185, requiring him to submit plans, was served on the 5th May, 1883, and a subsequent notice on the 11th June, 1883; but up to date he has not complied with them. The building was completed on or about the 6th June, 1883. The building is unobjectionable, with the exception of attic rooms lately put up over the said four shops. The party was requested several times to remove these attic floorings, and although he promised to comply, he has failed to do so up to date. I therefore beg to solicit the favour of your obtaining the sanction of the Town Council to remove the said floorings, as required under section 167. The notices in connection with the case are herewith forwarded.—I have, &c.,

R. MACEWEN,
Assistant Engineer, Municipality.

Mr. Nowrozjee asked if there was any provision in the Act prohibiting the erection of attics.

Mr. Sayani said there was no special provision with regard to attics. The present case would probably come under the general sanitary rules.

Mr. Khote remarked that almost every native house had attic floorings.

The Acting Municipal Commissioner said that they would not find many houses having complete attics occupying the whole length of the building. Here the basement storey and the loft were too low for the purpose of free ventilation, and therefore unfit for human habitation.

Col. Merewether urged that the landlord having set the Municipal Act at defiance, the provisions of the Act should be enforced against him.

The Chairman said that the man should have obtained the usual permission of the Municipality before he commenced the building.

Mr. Jeejeebhoy was of opinion that proceedings should be taken against the man for his failure to submit the plans as required by the Act.

Mr. Nowrozjee contended that the sanitary objection fell to the ground, inasmuch as the attic was employed as a godown and not as a human habitation.

Mr. Dosabhoy proposed that as the place was only intended for use as a godown, and not as a human habitation, the Town Council did not think it necessary that any portion of it should be altered or demolished; but that as the owner had failed to furnish the Municipal Commissioner with any plan or statement regarding the attic, the Commissioner might take legal proceedings against him.

Mr. Khote seconded the proposition.

Mr. Sayani then moved an amendment to the effect that a sanction be given, under section 167 of the Act, to the Municipal Commissioner to remove such portions of the attics as he should consider necessary on sanitary grounds. He said that the attics were objectionable, because they occupied the whole length of the building. It was alleged that the building was not intended for human habitation, but it was plain that they were built with that object. Any one who went through the native town would see that people who hired shops lived in the lofts above, with the object of economy and convenience. Mr. Sayani added that a loft occupying about half the length of the building would not be objectionable, because it was not likely to obstruct light and air. If the defaulter were prosecuted before a magistrate and fined in the sum of Rs. 25 or Rs. 50, he would be let off very cheap.

The Chairman said that it would be very dangerous if people were allowed to build lofts with little or no ventilation, apparently to be used as godowns, but really meant for human habitation. With these remarks, the Chairman seconded the amendment.

After some desultory conversation, the Chairman said that they had been nearly an hour over the subject, and had a long list of items to go through. He then put the propositions to the vote, with the result that Mr. Sayani's amendment was carried by five votes to four.

A CASE OF MISUNDERSTANDING.

The Council then proceeded with the further consideration of the question asked by Mr. Nanabhoy B. Jeejeebhoy as follows :—"Why a certain portion of the foot-path on the Grand-road, adjoining the Methodist Church, and right opposite Mr. Ellapa Ballaram's bungalow, has been allowed to be encroached upon by a bamboo fencing, and whether any steps have been taken to remove such encroachment, or what steps the Commissioner intends taking in this matter."

The Commissioner said that there existed some misunderstanding on the subject. There had been a fence erected on a certain piece of ground, but the land did not belong to the Municipality.

Mr. Nanabhoy said he would still maintain that a portion of the fencing had been on the public road.

The Commissioner said that the property belonged to the church.

Mr. Nanabhoy said that if the place belonged to the church he did not know why the railing should have been removed after he had given notice of his question.

The Commissioner said that he was in correspondence with the trustees of the Methodist Church with the view of taking up the land for the purpose of road improvement.

Mr. Nanabhoy asked why the Municipality had metalled the footpath and watered it, if it was not the property of the Municipality.

Mr. Nowrozjee thought that the back of the chair should be a little higher than it was, so that the members might rest their head on it comfortably.

Mr. Dosabhoy.—This is good enough as it is. If it were made more comfortable, perhaps members won't bring a proper attention to the proceedings. (A laugh.)

It was then agreed to have from Mr. Wimbridge a pattern of a chair, which, while it should be as comfortable as the one now in use, should meet with the approval of members, must at the same time be made more simple and cheap.

APPLICATION FOR COMPASSIONATE ALLOWANCE.

A letter was read from one Rukhumabai, daughter of a late peon in the Assessment Department, stating that her father had lately died of consumption, leaving only Rs. 9-10 in cash, in asking for a compassionate allowance to enable her to perform the rites which were indispensible according to the Hindu religion. The applicant added that her husband was without employment. In connection with this, a memorandum was submitted from the Commissioner, asking the Council to sanction the payment of a compassionate allowance of Rs. 110-14.

Mr. Khote said that the applicant being a married woman, who depended on her husband, there was no necessity for sanctioning the allowance.

The Chairman thought that her husband was not able to support her.

Mr. Banajee.—If a man serves eighteen years, and if on his death his daughter gets Rs. 110, surely the allowance should not be objected to.

Mr. Khote said he did not consider the amount, but the principle.

The matter was then postponed for further inquiries as to the circumstances of the applicant.

ROAD REPAIRS.

Sanction was asked to the transfer of Rs. 734-8, from savings in the budget grant, for road repairs, section I., road metal, Engineer's Department, to section XIV., contingencies, same department, to meet cost of raising and repairing the Parel Tank-road boundary wall.

Mr. Dosabhoy Framjee said that if the wall of the Parel Tank was to be repaired it may be done from the savings in some other grant or from the surplus cash balance. But he objected to the grant for road repairs being curtailed, as in his opinion all the available funds should be employed in the repairs of the roads, some of which were in a most discreditable state. For instance, he might mention the Parsee Bazaar-street, in which a carriage jolts over the whole of the road. They had recently had many complaints of the state of the roads in the newspapers.

After some discussion it was resolved, on the motion of Colonel Merewether, that the matter be allowed to stand over, and the Commissioner be asked to report whether the wall might not be removed.

The Council then adjourned.

VESSEL ARRIVED.—The following vessel arrived yester

Colonel Maddoch, R. A.; Major Becher, 13th B. L.; and Major Willis, Brigade-Major. A large crowd of other residents of Meerut, European and native, also followed the body to the grave. The last sad offices over, all took one look at the melancholy record of a life so useful and full of further promise, but so suddenly cut off: "Elliott Colvin, B.C.S. Died November 3rd, 1883, aged 47." Mr. Colvin was as a Commissioner much beloved and respected by the officers who had the privilege of serving under him. He was a man with a thorough grasp of every detail of administrative work; bold and unflinching in forming an opinion, tenacious of it when once formed; always ready to give a friendly support to his District Officers in their work, but prompt to put a stop to anything that might tend to weaken administrative efficiency. His loss will be greatly felt by all classes in society, and his place as an official it will be most difficult to fill. Mr. Colvin had been in poor health for some months, but his death was very sudden and unexpected."

THE LATE SWAMI DAYANAND SARASWATI.

A CORRESPONDENT writes from Ajmere, 2nd November, to the *Pioneer*:—"I send you particulars of the very sad and untimely death, on the evening of the 30th ultimo, of Swami Dayanand Saraswati, one of the most eminent Sanskrit scholars India has produced since the age of Sankar Acharya and Vallabh Swami, both of whom flourished in the 9th and 16th centuries A. D. It seems very probably that had Dayanand Saraswati lived a decade more, he would have done incalculable good to his countrymen. Born of humble parents in Gujrat, this extraordinary man emigrated in his boy hood to Mathura, in the N. W. P., nearly a quarter of a century ago. It was here that he studied Sanskrit to his heart's content, and afterwards resolved to make preaching tours all over Northern India in 1867. He soon became famous for his talents, and with his usual unremitting zeal and industry in his Vedic studies he created a new religion, the doctrines of which were heterodox to the modern theology of the Hindus. He designated his novel sect the Arya Samaj, or an Aryan Association. The doctrines of this well-known Samaj are all of a purely social and religious character; and though they have been often discussed, I may add a very brief and, I believe, accurate summary:—

I.—Dayanand was not a believer of idols, temples, sacred places, shrines, &c., and he repudiated the institution of caste *in toto*, thereby encouraging intermarriages. The Brahmans became in this respect his most irreconcilable enemies.

II.—Dayanand rejected the large pantheon of the Hindu religion, and endeavoured, so far as he could, to teach his countrymen the simple worship of the Vedas.

III.—Dayanand advocated with great steadiness widow-marriage and female education.

IV.—He was the bitterest enemy to the custom of early marriages amongst the Hindus.

V.—He denounced kine-slaughter all over the Indian Empire, and caused numerous memorials to be sent to His Excellency Lord Ripon, with a view to its discontinuance.

VI.—He greatly encouraged the study of Vedic literature among all classes of the Hindu community irrespective of caste distinctions.

But it is a singular fact that, with all his Sanskrit learning and pure motives, he was regarded with the highest contempt by the Pandits of Benares for his over weening conceit and highly eccentric nature. It is doubtless true that all his doctrines savoured of excess, and had the Swami cherished to simplicity and moderation becoming to a true reformer, he would have decidedly obtained, like Sankar and Vallabh, an army of followers. He was, nevertheless, a first-rate Vedic scholar and chanter, and the philosophical and experimental lectures which he used to deliver in Sanskrit occasionally and in Hindi generally, doubtless place him very high in the list of India's greatest speakers. He studied both the Bible and the Korah, and he was accustomed to compare them with the Vadas. I am not betraying any secrets or leading people into misconception by my criticism, since the Swami has now gone to "the undiscovered country from whose bourn no traveller returns," and therefore "praise and blame fall on his ear alike." Dayanand's corpse was burnt on the 31st ultimo, at 3 p. m. Tue funeral procession consisted of a few members of the Arya Samaj but the number of spectators was larger. The cremation was done in precisely the same manner as laid down in the Vedic ritual, directions for which had been given by Dayanand himself in his Will.

THE AUSTRALIAN COLONIES AND THE CALCUTTA EXHIBITION.

THE opportunity which the approaching Exhibition ought to have furnished for the promotion of commercial relations and general good feeling between this country and the Australian Colonies is in a fair way of being not merely wantonly sacrificed, but converted into an occasion of just indignation and heart-burning to the Colonies by the combined illiberality and ineptitude of the Government of India. On the occasion of the late Exhibitions at Sydney and Melbourne, the Colonial Governments concerned behaved with the most open liberality to India, giving her free space for her exhibits, and exerting themselves in various ways to advance her interests. The least the Colonies were entitled to expect was that, in the case of any international exhibitions that might be [illegible] this country, the Government of India [illegible]ciprocate this liberality, by giving them [illegible] and every facility in its power for their [illegible]. Not only has the Government not done [illegible] only has it left the Colonies to pay for [illegible]are foot of space required by them—but [illegible]e it has aggravated its penurious mean- [illegible]consciously or unconsciously, doing what [illegible]nly describe as laying a trap for them. [illegible] were the Colonies expressly invited [illegible] Government to exhibit, but in [illegible]o a requisition of one of the Colonial [illegible]hts for a certain amount of space, the [illegible]t of India sent them an official telegram [illegible]am the space required. Not a word was [illegible]d the Colonial authorities to expect that [illegible]ould be required of them, or to warn [illegible]Mr. Joubert was the principal and the [illegible]of India only the agent in the matter [illegible]ment of space.

On the arrival in Calcutta of the representative of the Colony in question, he of course found that it was Mr. Joubert, and not the Government, with whom he had to settle, and that payment for the space required was an indispensible preliminary to its occupation. Mr. Joubert, as far as his part in the business is concerned, has merely dealt with a business matter in a business manner. Whether it was a desirable thing or not, that the Government should associate itself with an Exhibition got up on the terms on which Mr. Joubert undertook to get up the Calcutta Exhibition, is open to argument. But the Government having made certain terms with Mr. Joubert, that gentleman is, of course, quite right in adhering to them. At the same time, it is plain that, having associated itself with the Exhibition on these terms, the Government was morally bound, in its communications with other Governments or with individuals, regarding it—to inform them plainly how matters stood. If, without so informing them, it telegraphed to any Government or individual, that so much space had been allotted them, it is, probably, legally liable to that Government, or individual, for any money which they may ultimately have to pay on this account.

But we shall, probably, carry the entire public with us when we say that, apart from all questions of legal liability, and notwithstanding the nature of the arrangement with Mr. Joubert, the Government of India, whether on grounds of policy, or equity, or generosity, ought not to allow the Colonies which gave this country space for nothing in their Exhibitations, to be charged for that which they occupy in turn. It is simply a disgrace to the Government that any question should have arisen in the matter, and we can only hope that so discreditable a blunder will be rectified in time to prevent its being publicly announced in the Colonies that the Indian authorities have behaved with such meanness. If the Government grudges a few thousand rupees (probably not more than eight or ten) for such a purpose, we have no doubt the public will subcribe it, not to save the Government from just reprobation, but to emphasize their disapproval of its conduct.—*Englishman.*

DEATHS IN CALCUTTA.—During the week ended on the 27th of October there were 243 deaths registered in Calcutta, giving a death-rate of 29·2 per thousand per annum. FACILITIES FOR VISITING CALCUTTA.—The P. & O. Co. are prepared to convey passengers to Calcutta for reduced fares (Rs. 100 return ticket) during the approaching Exhibition. The arrangement by the Madras Railway Company, in conjunction with the P. & O. Co., is a good one, and we believe it will be taken advantage of by many persons. There will be a difficulty, probably, in getting suitable accommodation in Calcutta, and it is a pity that the steamers cannot be utilized by visitors.—*Madras Mail.*

RETURN OF THE GOVERNOR.—His Excellency the Governor of Madras, accompanied by his staff, returned from Ooty this morning (Tuesday), by the 7 a.m. mail-train. A large number of civil and military officers were present at the Central Station platform to receive His Excellency. On immediately on the Governor alighting on the platform, a guard-of-honor, consisting of fifty rank and file from [illegible] Madras Volunteer Guards, under command of [illegible]ne F. O. Sherman, with regimental colour and [illegible]Capt. paraded in review order, and presented [illegible]d band, Excellency held a brief inspection of th[illegible]rms. Hollow[illegible] of the b[illegible]*ay's Pills.*—Nervous Debility.—No part nerv[illegible]uman machine requires more watching than the g[illegible] [illegible]ous system—upon it hangs health and life itself. [illegible]ese Pills are the best regulators and strengtheners of the nerves, and the safest general purifiers. Nausea, headache, giddiness, numbness, and mental apathy yield to them. They dispatch in a summary manner those distressing dyspeptic symptoms, stomachic pains, faintness at the pit of the stomach, abdominal distension, and overcome both capricious appetites and confined bowels—the commonly accompanying signs of defective or deranged nervous power. Holloway's Pills are particularly recommended to persons of studious and sedentary habits, who gradually sink into a nervous and debilitated state, unless some such restorative be occasionally taken.

CHRONOGRAPH WATCHES,

OF A NEW AND IMPROVED SYSTEM.

WE have just received a consignment of NEW RACE OR CHRONOGRAPH WATCHES which for durability, accuracy precision, and convenience leave nothing to be desired.

The Chronograph hand is in front of the watch over the hour and minute hands. The cases are extra strong, with a solid cover on the back and a glass inside to protect the work.

The general objections to the Chronographs with second hand and glass on the back were that those glasses often broke, and each time necessitated a cleaning; that the glasses did not thoroughly protect the works from dust; and that to move the regulator it almost required the help of a watchmaker.

All these serious drawbacks of an otherwise good watch have been avoided in the construction of our new and improved Chronograph watches.

They are in stock—
